Jeffrey Padnos

with a common interest in recycling as a usable force for economic, ecological and conservation improvement.

Mayor John V. Lindsay chaired the program with several spokesmen in the recycling area taking part.

The areas covered on Recycling Day were: (1) economics and recycling, (2) government's role and plans, (3) public role and social responsibilities and (4) a symposium on municipal waste.

Following these speakers four workshops were conducted covering wastepaper, non-ferrous metals, iron and steel and textiles.

Jeffrey Padnos, son of Mr. and Mrs. Stuart B. Padnos was on the discussion panel concerned with recycling wastepaper. He is now employed by the city of New York in their Environmental Protection Administration. Padnos was instrumental in getting the city of New York to change their paper specification so that recycled paper may now be purchased for use by the city.

Considerable Business Transacted by Council

At a 35-minute meeting Wednesday night, City Council processed considerable business with promptness and dispatch.

A city manager's report outlined three new sanitary sewer installations and council set public hearings March 3 at 7:30 p.m. The proposed installations are in Waverly Rd. from Eighth to 16th Sts.; in Cambridge Ave., from Eighth to 12th Sts., and in 40th St. from the C and O railroad to 1,302 feet east of Waverly Rd. The installations in Cambridge Ave. and Waverly Rd. would come under the standard cost policy adopted Nov. 4 and the 40th St. installation which is in the South Side Industrial Park would have full costs assessed to the property owners.

Calvin Group Returns Home

Tired but happy to be back in the United States nearly 40 young people from Calvin College, arrived by bus at Knollcrest campus in Grand Rapids Sunday afternoon, after spending five weeks in Europe.

The group left Dec. 27 from Calvin, traveling by bus to New York and leaving there by jet to London, and Amsterdam.

While in Europe the students toured East and West Germany the first week. The second, third and fourth weeks were spent in studying the German language in Berlin. The fifth week in Europe was a free travel week in which the students could go to the country of their choice. Among the countries they visited were Switzerland, France, England, Austria and The Netherlands.

In the group were several Holland and Zeeland students including Sue Zwiers, Carl Bratt, Steve Steenwyk, Nancy Witteveen, Tina Bruinsma, Mary Blystra, Trudy Konynenbelt, Linda Steenwyk and Ruth Koop.

Four Arrivals Listed In Holland Hospital

Holland Hospital has four new arrivals, three girls and one boy.

A daughter, Krista Margaret, was born Tuesday to Mr. and Mrs. Kenneth Deur, 552 Lake Dr., Holland; a son, Alan Lee, born Tuesday to Mr. and Mrs. James Knoll, 22 East 9th St., Holland; a daughter, Gail Ann, born Tuesday to Mr. and Mrs. Cecil Collins, 293 Felch St., Holland; a daughter, Michelle Sue born today to Mr. and Mrs. Ronald Poppema, 6545 138th Ave., Holland.

Council adopted a resolution accepting the jurisdiction of that part of 40th St. which was annexed to Holland early in 1970, adjoining the Holland Motor Express Co. property. The jurisdiction of this peripheral street has been relinquished by the Allegan County Road Commission by resolution.

Council allowed expenditure of \$750 for demolition of a building in a bad state of repair on property recently donated to the city by the Blackhawk Co. (C. M. Dykema). This property adjoins the street department warehouse. A suggestion was made that bids might possibly run less than \$750 and this matter will be investigated.

A report by Adrian Koert, traffic consultant, in response to a request from Council to review proposed elimination of parking on one side of all streets throughout the city, recommended against such action on the basis that it would not contribute to an efficient street system. Koert pointed out that specific problems could be remedied separately. His report was placed on file for further review and study.

On recommendation of the city manager, all existing beer and wine licenses were renewed, backed by reports from the police chief, treasurer and Department of Environmental Health. The report indicated one place of business was in need of some structural revisions, but this did not recommend denial of renewal at this time.

After a two-week wait-and-see period, Council revised the parking schedule to limit parking to one hour on the north side of 14th St. from River Ave. west for a distance of 163.4 feet.

Council approved a transfer of funds within the police department for the purchase of four used typewriters and one new typewriter.

Atty. Donald Hann appeared before Council on behalf of several downtown merchants questioning progress on possible action on what they believe is nonconforming use of the Vogelzang property at 25 West Eighth St. which is utilized as a warehouse. Mayor Nelson Bosman believed another meeting was set up within a week but Councilman Elmer Wissink felt it might take longer because some persons concerned were on vacation.

Haan argued it should not take long to get a city attorney's opinion on the legality of nonconforming use and the procedures of an assessment district. Councilman Morris Peetbolt's motion to have a report on legal responsibilities at the next meeting of Council carried.

Oaths of office were filed for Ralph Bouwman, Gordon Cunningham and Jack Leenhouts as members of the Board of Review; Mildred K. Campbell, Greater Holland Community Foundation, and Howard W. Kammeraad and Lawrence J. Geuder, planning commission.

A communication from the Michigan Municipal League urging Council to take formal action to endorse the federal tax sharing program was referred to the city manager for study.

A letter from the Lake Macatawa Intermunicipality Committee recommending that the city and the townships of Holland and Park provide in their budgets a total of \$10,000 for possible installation and operation of a bubble curtain for alewife control was referred to the city manager for budget study.

A change order in the BPW contract of Owen-Ames-Kimball for waste water plant improvements in the additional amount of \$6,062 was approved. Council acknowledged with thanks gifts to Holland Hospital consisting of \$100 for intensive care unit equipment from Mrs. William Westrate, Jr., and a \$200 unrestricted gift from The Holland Evening Sentinel.

Low bid of Zvieve's Greenhouses of \$1,826 for 22,825 annual flowers for Windmill Island was approved. Two bids had been submitted.

Council confirmed a certification for Councilman Lamb for purchases from Lamb, Inc., of \$869.44 by engineering, park and cemetery departments.

Claims against the city from Schreier Printing Co., 422 Diekema Ave.; Ross A. De Witte, 260 East 14th St., and Lawrence Brower, 52 West 38th St., was referred to the city insurance carrier.

All Councilmen were present at the meeting over which Mayor Bosman presided. The Rev. Simon Vroon of Central Avenue Christian Reformed Church gave the invocation. City Manager William L. Bopf was absent attending a city manager's conference in Ann Arbor, and City Engineer Harold Derks served as acting city manager.

POOR DRIVING CONDITIONS — Typical of driving conditions Saturday was this view of northbound I-196 at the Graafschap road overpass south of Holland. Three vehicles collided in this mishap just north of the overpass late Saturday morning. South of the overpass another seven

vehicles collided in a separate accident. No injuries were reported. The northbound lanes were closed for about 3 1/2 hours while the vehicles were removed. Blowing snow Saturday cut visibility to zero. (Sentinel photo)

Home Health Services Reviewed

Services of Home Health of the Ottawa County Health Department were outlined Wednesday noon at a meeting of the advisory committee in Holland Hospital. The advisory committee functions much like the former Visiting Nurse board in home nursing services.

The Ottawa Health Department which operates from the county branch building on North River Ave. will send out a nurse to any home free of charge to evaluate a case and make recommendations.

These services extend to teaching members of the family in home nursing, baths and activities of daily living.

The health department staff also will provide information on Medicare and services of such other agencies as the Cancer Society.

Serving on the advisory group are Chairman Larry Hildore, director of social services in Ottawa county; Dr. Richard Leppink, Mrs. E. V. Erickson of Grand Haven, Cornelia Van Voorst, Deborah Hekman, head nurse at Holland Hospital; Kathryn Greneveld, nursing supervisor of the county health department; Vivian Visscher, new supervisor with the department since Jan. 1; John Wyman, acting county health director, and Ruth De Neff, coordinator for home health services. Mrs. De Neff was formerly VNA nurse.

Miss Visscher who has a master's degree in public health came to Holland after conducting a Tecumseh Community Health study for the University of Michigan. She has been in public health work for several years. She is a sister of former Mayor Robert Visscher.

Groundhog Opts For More Winter

Freezing Rain, Drizzle Compound Holland Weather

Light drizzle, freezing rain and gradually moderating temperatures compounded the weather picture in Holland today.

As rising temperatures dissipated the icy surface of glazed highways, the precipitation also made snowy deposits sticky and gummy and some cars spun wheels at curbs.

It was 30 degrees at 11 a.m. Another 2.5 inches of snow fell Wednesday, leaving 28 inches on the ground. The overnight low was 23. Precipitation measured .04 inch.

The forecast said snow, freezing rain or drizzle might change to rain tonight, followed by snow and colder late Friday.

Hazardous travel marked the whole of southern Michigan today as motorists slipped and skidded to work on roads glazed by freezing rain and snow. Dozens of schools in the state remained closed because of the poor weather.

US-31 along Lake Michigan was coated with ice from Benton Harbor north to Traverse City. Snow-slicked roads in the upper peninsula also were hazardous.

Two Cars Collide

Autos driven by Nancy Kay Lowther, 26, 1204 South Lincoln Ave., and Larry J. Huizenga, 25, 4776 Crestwood, collided Wednesday at 7:09 p.m. at 32nd St. and Ottawa Ave. Huizenga was eastbound on 32nd while the Lowther car was heading north on Ottawa.

The groundhog saw his shadow in Holland Tuesday, and bright hopes for a shorter winter were blasted forthwith. Another six weeks of winter was predicted and U.S. weather observers did not disagree.

Intermittent sunshine occurred throughout the morning, intermingled with snow and still more snow, presenting no real letup since the current cold spell started a week ago Monday night.

Holland was one of the few places in Michigan to escape a subzero reading early today as the cold spell went into its eighth day.

The overnight low was 1 above and it rose to 3 at 6 a.m. and to 7 at 11 a.m. Monday's maximum was 4 degrees.

Another seven inches of snow fell here Monday plus an inch overnight, putting the ground depth at 26 inches.

Mrs. B. Patterson Succumbs at 76

GRAND RAPIDS — Mrs. Burleigh (Irene) Patterson, 76, of 1761 Eastbrook St., S.E. died Monday at her home here. She and her husband and children were former residents of Holland until four years ago.

Mr. Patterson was employed at Baker Furniture and also at LaBarge Mirrors Inc. for a time.

Surviving besides the husband are two children, Roger at home and Mrs. Richard Carroll (Joan) of Dallas, Texas; two grandchildren; a sister, Josephine Ver Hage, and a brother, Howard LeRoy, both of Florida.

Local Snow Measures 25 Inches

Seven-Car Pileup Closes Part of M-40; Public Schools Open

With no letup in a full week of bitter cold and mounting snow, Holland Monday struggled through another day of plunging temperatures and swirling snow. And no relief was promised Tuesday.

A seven-car pileup on M-40 between Holland and Hamilton closed the highway to traffic for a time this morning. Sections of I-196 and Blue Star Highway between Holland and Saugatuck were closed at periods during the weekend. M-21 between Holland and Grand Rapids remained open.

With 25 inches of snow on the ground, all Holland public schools were in operation today, but all other area schools remained closed. Holland Christian High School had considered exams this afternoon, but cancelled school at 10 a.m. because of blizzard-like conditions.

Sunday's snowfall amounted to 4 inches, plus another 5 inches overnight. The overnight low was 1 above and the high Sunday was 4 degrees. It was 2 at 6 a.m. Monday and 4 at 11 a.m. It was the coldest weather of the weeklong cold siege that started a week ago tonight.

Many churches in outlying areas cancelled services Sunday.

Among schools closed Monday were those in Hamilton, Hudsonville, West Ottawa, Holland Christian, Saugatuck, St. Peters in Douglas, Borculo Christian, Spring Lake St. Mary's and Seventh-Day Adventist.

Area Relaxes In 20-Degree Temperature

Holland residents relaxed Wednesday with moderating temperatures, the first break in eight days of a winter cold wave.

Area schools were back in operation as the temperature rose to 20 degrees at 11 a.m. today, the highest reading since the first storm developed the night of Jan. 25. The overnight low was 7 degrees above zero. Snowfall Tuesday measured 1 1/2 inches, leaving 27 inches on the ground.

Three Injured In Collision Of Four Vehicles

Wesley W. Schaap, 35, of Grand Rapids, one of three persons taken to Holland Hospital for injuries suffered in a four-vehicle accident Tuesday at 3:39 p.m. along Adams St. east of Zeeland, was listed in good condition Wednesday at the hospital.

Schaap was under treatment for neck injuries. Two passengers in the station wagon he was driving were treated at the hospital and released. They were Deborah Carlson and Carol Burgess, both 19 and from Byron Center.

Deputies said the Schaap vehicle was struck in the rear by a station wagon driven by Barbara J. Triezenberg, 22, of Grand Rapids. The impact sent the Schaap vehicle into the opposite lane where it collided with a car operated by Frances Schreier, route 1, Hamilton, and a fourth vehicle driven by Francis John Westveld, 43, of Zeeland.

Ottawa county sheriff's deputies said the Triezenberg, Schaap and Westveld vehicles were westbound on Adams while the Schreier car was eastbound.

At least 25 persons were listed as riding in the four vehicles.

Probation Given On Drug Count In Ottawa Court

GRAND HAVEN — Alvin Hippler, 19, Spring Lake, charged with use of marijuana, pleaded guilty in Ottawa Circuit Court Monday and was placed on probation for one year. He paid costs of \$100.

David Looman, 26, Holland, charged with indecent exposure, pleaded guilty in District Court and paid a \$25 fine and \$25 costs. He was placed on probation for six months.

MAILMAN'S BIG REACH — The mail box (arrow) atop a snowdrift in front of the Elden J. Morren residence, 3793 96th Ave., bears the appropriate inscription "Air Mail." The box had been knocked down during snow clearing operations and belongs to a neighbor wintering in Florida. The three Morren children, ranging in ages from 9 to 16,

decided to put the box atop the drift as a jest. Mrs. Morren said drifting had forced 96th avenue down to one traffic lane and plows were unable to widen the road. A front-end loader was used to dig away the snow. The mail box was located across the street from Morren house. (Sentinel photo)

Detroit Symphony Gives Dynamic Performance

Community Concert subscribers were treated to an impeccable performance by one of the country's great symphony orchestras, Wednesday night at the Detroit Symphony, under the direction of Sixten Ehrling, presented a concert in Civic Center.

The more than 100 members of the symphony were placed on the main floor of the building, with an improvised shell behind them. Many of those attending chose to sit in the balcony, but directly in front of them on the main floor, the full sweep of entire range of instruments was heard to good advantage, also.

The program featured the Brahms Second Symphony which was played after the intermission. Earlier the audience heard Smetana's overture to "The Bartered Bride," and the equally well known Liszt "Mephisto Waltz," with a modern work by Eugene Zador, an Hungarian transplanted to Los Angeles in between. All three works were enthusiastically received, with the audience's preference for the more familiar work easily perceived.

Full attention and hearty ap-

plause greeted the Brahms work, and deservedly so, as the dynamic Ehrling drew from his musicians the full Romantic score. Maestro Ehrling pleads, cajoles, threatens and dances on the podium, with now and then a wide smile to indicate his approval of the sound pouring forth.

The applause brought Ehrling back to zip the orchestra through the Prelude to Act III of Wagner's "Lohengrin," ending the concert with a magnificent flourish.

The final concert of the current season will be held Tuesday, April 13, at Hope College's Dinnert Chapel and will feature Sandra Carlock, pianist.

Raskiewicz was not injured. Thompson was examined; his wife was treated for lacerations; Patrick suffered a fractured clavicle and Karen abrasions.

Convict Holland Man in Shooting Of Another Man

GRAND HAVEN — Jose Ramirez, 20, 354 River Ave., Holland, charged with assault to commit murder in connection with a shooting incident in Holland, was convicted by an Ottawa Circuit Court jury Wednesday of an included charge, assault with intent to commit bodily harm less than murder.

Ramirez is to be sentenced March 8.

He was charged in the Aug. 8, 1970 shooting and wounding of Jesse Lopez who was struck in the abdomen by a slug fired from a .25-caliber automatic pistol. Police said the shooting climaxed an alleged argument concerning payment for beer.

The incident occurred in the rear yard of a home at 27 West 17th St.

Floyd Potter, 27, Grand Haven, was convicted Wednesday of receiving stolen property and is to be sentenced in circuit court March 8. He was arrested in connection with a burglary at a Grand Haven township bar.

Patricia Huizenga, 27, route 2, Holland, who pleaded innocent May 25 to a charge of passing insufficient funds checks, is scheduled for trial in Circuit Court Friday.

Mr. and Mrs. Tom Jappesen, 277 West 19th St., announce the adoption of a son, Kendall Scott, on Jan. 26.

African Adventure Shared by Teusinks

A boat trip up the Nile and an African Safari were two of the many highlights of Mr. and Mrs. Eugene Teusink's recent vacation to Uganda, London and Amsterdam.

The Teusinks, of 1468 West 32nd St., went to Uganda to visit their daughter Carol, 25, who is in the Peace Corps.

After initial planning, the Teusinks obtained shots, passports and a visa.

Boarding a plane in Grand Rapids which would take them to Chicago then on to Uganda, the Teusinks were making their aerial debut in a 20-hour flight taking them half way around the world to land sporting 80 degree temperatures.

Carol, waiting for her parents in Kelisizo, is a secondary school teacher. Her address is c/o Christ the King S. S., P.O. Box 5, Kelisizo, Uganda. She has been in the Peace Corps for 15 months and has another year remaining on her tour of duty.

The children present at the school represent a small percentage privileged to obtain a secondary education, and appeared "happy and ambitious."

According to the Teusinks, although the floors were dirty and the roads were dust covered, the children were spotlessly clean in their hand washed clothing and bare feet.

Carol accompanied the Teusinks on a motor tour of the back country, covering over 1,000 miles. They stopped at many national parks, the biggest of which was 40-mile wide Murchison Falls National Park.

They hired a guide at Murchison for a safari, on which they saw elephants by the score, along with water buffalo, giraffes, and many beautiful birds. The highlight of the safari came when a lioness and her two cubs approached to within 15 feet of the car, but then sulked away before they could be recorded on film.

Boarding a small craft for a trip up the Nile River, the Teusinks were witness to wild hippos, alligators, and crocodiles swarming around in the water almost crowding each other out, and creating a scene the Teusinks described as, "Almost unbelievable. Something you wouldn't want to miss for the world."

Uganda is divided almost in half by the Equator, and one thing the Teusinks remember is crossing and recrossing the line, to be met by an identical sign on every road proclaiming the

presence of the Equator.

Teusink, the holder of an international driver's license, did all of the family driving, over narrow and treacherous roads. The road work as well as the farming and construction in Uganda, is done by hand, with scanty materials and unpleasant conditions. The end result, however, is an example of fine craftsmanship and sturdy labor. While by our standards incredibly impoverished, these people are happy and prosperous; "for what they've got, they do real well," Teusink said.

In light of the subsequent events in Uganda, it was fortunate the Teusinks left when they did. On Jan. 21, merely two days after they left, the country found itself in the midst of a military coup, the outcome of which is still doubtful.

By that time, however, they had continued on their way, taking in London and Amsterdam on their way home. A week and a half was spent between these two places, where tours and sightseeing filled the time and souvenirs of Buckingham Palace and Amsterdam sights will tell the tale for years to come.

The Teusinks' plane from Chicago to Grand Rapids was forced down in Benton Harbor because of extreme blizzard conditions. Going over Lake Michigan, Teusink saw it was frozen out one full mile and he knew he was back home in Michigan.

USS DOUGLAS — The sleek, 165-foot patrol gunboat (PG 100) will carry the name of Douglas in honor of the Allegan county village and other communities of that name across the nation. The vessel is to be com-

missioned Saturday at Tacoma, Wash. The patrol gunboat is used in off shore patrols and control of coastal waters. Some are in use in Vietnam. (U.S. Navy photo)

SKATING COMPANIONS—Skating on one of the many Holland area rinks is twice as much fun if you go with a friend, so nine-year-old Janet Laaksonen took her dog Brownie (who is black) along recently when she went to the Glerum School rink. The combination of nippy weather and exercise in heavy winter clothing can prove tiring, though, and Brownie seems to approve of a short rest on a snow bank. Janet, daughter of Mr. and Mrs. Carl Laaksonen of 371 Elm Ave., is a student at Beechwood School. (Sentinel photo)

WHO NEEDS A TOBOGGAN?—Ottawa Beach State Park proves just as entertaining in the winter months as it is in summer, as three unidentified children prove by sliding down one of the many frozen icebergs completely oblivious to the cold. Feeling much like many motorists have the

past few days trying to navigate local streets and highways, these and many like them turned out to the park recently where they enjoyed the icy wonders of the shore line and beach.

Dutch Swimmers Dunked by Bucs

The Holland High swimming team dropped its fifth meet of the season, sinking 55-50 at the hands of the Grand Haven Buccaneers Tuesday evening in the Holland Community Pool.

Paced by senior ace Jim Bradford, the Dutch led 38-37 with three events remaining, but couldn't pull off good enough times in the specialty swims to maintain their lead.

Coach Bob Andree was happy with the performance of his swimmers, as eight men lowered their times. He singled out Dave Holt and Dave Ter Haar as doing particularly well in their events.

Spurred on in the final fifty yards of the individual medley, Bradford overtook the Bucs Rog Midkiff, to post a 2:14.6 first place while diver Dave Sundin maneuvered off the boards with a first place showing.

The only clean sweep for the Dutch was earned in the 400-yard freestyle with Bradford stroking for a 4:11.7 first place and Dave Ter Haar snatching second place with a 4:36.4, knocking 13 seconds off his previously best time.

In spite of the defeat at hand, the freestyle relay team composed of Scott Maentz, Tim Holt, Jim Jellison, and Terry Marlink combined for a first place with a 3:54.9 clocking.

The Dutch are now 7-5 in dual meet competition and 2-4 in league competition will host the South Haven Rams next Tuesday, at 6:30 p.m. in a league meet at the Holland Community Pool.

Results in order of finish:
200-yard medley relay—Grand Haven (Bennink, Blok, Schmidt, White), Holland (Wyskoff, Haken, Beukema, T. Holt). Time 1:55.9.

State Park Functions Outlined

Past, present and future of Holland State Park were discussed by Douglas D. Carter, assistant park supervisor, under the subject, "Recreation, Wreck creation, or Re-creation," at a Chamber of Commerce Early bird breakfast Tuesday in Hotel Warm Friend.

The popularity of the local state park has placed it consistently at the top of the list in Michigan, or never lower than second or third place, but the changes that come with a changing society have affected the local park in recent years, sometimes to the park's detriment, the speaker said.

He defined recreation as some form of fun and enjoyment, and there never has been any question of the services of the local park as a great recreation center. The park, partly developed under CCC and WPA programs was turned over to the state Department of Natural Resources in 1939. Two years ago a new site on Lake Macatawa was designed for campsites, providing 880 parking spaces on the main 44-acre park on Lake Michigan.

Wreck-creation has been on the upswing the last few years, and park rangers who also are law officers have had their problems with vandalism, drugs, alcohol, thefts and other problems that come with overcrowding. Last summer, he said, these problems spread beyond the park borders and concerned citizens called meetings.

One development was posting Ottawa Beach Rd. with no-parking signs to discourage walk-in parties. He said all state parks are carefully designed for services. For instance, no more than two cars per camp... six per camp would upset not only parking design but result in an imbalance on utilities.

Also under consideration are improved lighting and limiting the number of youth camps in the park. The latter would be a decision on the state level.

Last week, Carter said, the state department adopted a snowmobile policy for state parks, providing limited areas for the sport. Snowmobiling has not worked out well at the local park to date because of high winds and sand.

One problem of recreation programs is to judge trends and fads, and the snowmobile popularity has burgeoned from 8,000 in the entire United States in 1964 to 200,000 in Michigan alone this season. Then there are other off-the-road vehicles to be considered, plus whatever inventive youth will come up with next time around, the speaker said.

Women's Society Views Youth Film

The Women's Society of First United Methodist Church met Thursday evening with dessert preceding the meeting. Various desserts were served and the tables were decorated with a Valentine theme. Service committee was Lydia Circle, Miss Nancy Orr, chairman.

The program for the evening was a film given by the United Methodist Youth Fellowship. This film was made by the youth with the assistance of Donald Finn, director and photographer, and took two weeks to film. It is a church service film done in contemporary style capturing the essence of the youth message.

The title "Let Me Be Free to Wonder," expresses the youths' desire to explore their faith through medians meaningful to them such as rhythm choir, choral reading, combo music, group singing and sermonettes.

Parked Car Struck

A car operated by Eric D. Dalman, 16, 428 West 20th St., rounded a corner onto southbound Harrison Ave. and struck a car parked northbound on the east side of the street 175 feet south of 27th St. Tuesday at 3:35 p.m. The parked car was registered to Paul A. Carpenter, 1894 South Shore Dr.

Hits Disabled Car

A car operated by Lewis W. Hopkins, 25, of Douglas, struck the rear of another car, stuck in a snowbank and operated by Daniel Lee Snyder, 25, of 740 First St. The mishap occurred Monday at 2:56 p.m. along the Blue Star Highway, 400 feet south of 48th St.

SAUNA, ANYBODY?—Anybody who wants to patronize Speet's Motel on Blue Star Highway about five miles south of Holland will have to dig a path through a 10-foot snowdrift. The motel is closed for the

season, and the sauna bath sign is one of the few things that can be seen. The motel, which is located in a windswept area is a true orphan of the storm which hampered traffic for well over a week. (Sentinel photo)

KITTY HAWK LIVES AGAIN

All of us are watching Apollo
14 with interest . . . and con-
cern.

A 40-minute delay in blastoff
was only a routine setback,
but those docking difficulties a
few hours later brought sobering
thoughts to everybody.

But now Commander Alan B.
Shepherd Jr., Stuart A. Roosa
and Edgar D. Mitchell are on
their way to the moon racing
their command module "Kitty
Hawk" and their lunar Module
"Antares."

This speedy trip, slated to
cover nearly a half million
miles before the scheduled
splashdown Feb. 9 is a far cry
from the Kitty Hawk incident
of the Wright Brothers in 1903.

It was on Dec. 17, 1903, that
the first successful flight in a
heavier-than-air mechanically
propelled airplane was made by
Orville Wright four miles south
of Kitty Hawk, N.C. That flight
rose 120 feet in 12 seconds in
winds of 27 mph.

Apollo's speed is 18,000 an
hour.

May it all go well.

Mental Health Services Move To New Facility

Community Mental Health
Services of Ottawa County has
moved into their new facility
at 549 West 18th St. (corner of
18th St. and Diekema Ave.)

Crowded conditions in the
Child Guidance Clinic at 15th
St. and Van Raalte Ave. (now
Community Mental Health Ser-
vices) necessitated a search
for larger quarters.

The constant challenge of
trying to schedule 400 patients
a month into three offices at
the Van Raalte address and
housing four secretaries, desks,
and records finally forced a
move. A search for new offices
was begun last March and
finally culminated in the pre-
sent move.

The same warm response was
received when the Greater Hol-
land Foundation was approach-
ed for help as when Mrs. Ken-
neth Campbell donated the
Van Raalte address to the citi-
zens of Holland for a mental
health clinic. That gift was
given through the Greater Holland
Foundation in 1955.

The Greater Holland Founda-
tion purchased the office build-
ing at 549 West 18th St. and
has been remodeling it to ac-
commodate the needs of the
community by providing seven
offices and two conference
rooms for group therapy, con-
sultation and educational uses.

The Clinic staff under the
direction of Dr. Floyd Westen-
dorp, has been moving as the
offices are completed. The en-
tire clinic moved Tuesday to
the new facility and are seeing
patients there today.

An open house has been
planned in the near future for
Holland citizens to tour the
new quarters. The date will be
announced soon.

Persistence in Prayer
Luke 11:11-13; 18:1-8
By C. P. Dame

People talk and argue about
prayer but most of them keep
on praying and all pray in a
time of danger or distress.
Jesus prayed much and taught
His disciples to pray. May this
lesson lead us all to pray more
faithfully and persistently.

I, God, our Heavenly Father,
answers prayer. One day the
disciples saw Jesus praying and
were impressed and asked
Him, "Lord teach us to pray,
as John taught his disciples to
pray." Jesus taught the disci-
ples the Lord's Prayer and
followed that by telling a story
about the man who woke up
a friend at midnight to ask for
bread he could give to an un-
expected guest. Jesus then
added words of encouragement
about prayer.

Jewish fathers were impor-
tant in the family. Jesus said
that no father whose son asked
for a fish would give him a
serpent, or if he asked for an
egg would give him a scor-
pion. No father would give
something harmful to a son.
"If you then, who are evil,
know how to give good gifts to
your children, how much more
will the heavenly Father, give
the Holy Spirit to those who
ask Him?" Thus Jesus reas-
oned. God is a perfect Father
and He will give the Holy
Spirit, who is the fount of all
spiritual blessings and the
greatest of all gifts, to all who
ask Him. He who gives the
greatest will surely not with-
hold the lesser.

Answers vary. Sometimes
God says "No," sometimes
"Yes" and sometimes "Wait."
Sometimes He gives something
better than what we seek. Do
we ask right? Do we have the
attitude of Jesus?

II. Jesus commands persist-
ence in prayer and, in a par-
able, told about a wicked judge
who was pestered by a per-
sistent widow who wanted jus-
tice. This parable teaches to
keep on praying and never
lose heart. The woman wanted
what was coming to her and
she bothered the judge until he
gave in to her persistent plead-
ing. The Lord's reasoning is
plain. If the continual efforts of
a needy and defenseless widow
moved a wicked and unprincip-
led judge to action, then we
may assume that a loving God
will surely hear the cries of
His elect and vindicate them.
God may seem to respond lei-
surely but He will do it soon
enough for their interest and
benefit.

III. We can trust God. What
about His people? When the
Son of man comes will He find
faith on earth? Will He find the
faith that is expressed in con-
tinual persistent pleading? This
is the kind of faith that is needed
now—do we have it?

Five Reported Injured in Two Related Crashes

GRAND HAVEN — Henry
Ten Clay, 21, of 317 Lincoln
Ave., Holland, and his passen-
ger, Jilenda Ten Clay, 19, were

Avoid Those Frozen Pipes; Let Water Run

A warning to beware of fro-
zen water pipes was issued to-
day by Holland Board of Pub-
lic Works.

Superintendent of Utilities Guy
E. Bell said numerous calls
have been received by the de-
partment reporting frozen wa-
ter service pipes.

Bell said freezing of water
pipes frequently occurs in those
areas where the customer's wa-
ter service pipe crosses the
road to the water main. He
said the extreme cold weather
in recent days has pushed the
frost to the depth of service
pipes beneath the streets.

Traces of rust in the water
is an indication that water
might be freezing in the pipes,
Bell said. He suggested that
residents with a history of trou-
ble with frozen water pipes
keep faucets running a small
stream of water to prevent
freezing, especially overnight.

He added that the cost of let-
ting a small stream of water
run was relatively small com-
pared to the charge to have the
frozen pipes thawed.

The Black Road, a cross of
gold supposed to contain a
fragment of the "True Cross,"
was taken to Scotland by the
wife of Malcolm III. All trace
of it is lost.

West Ottawa Rally Falls Short by 8

West Ottawa lost to Spring
Lake here Tuesday night 79-71
in a non-league basketball
game.

The Panthers staged quite a
comeback in the fourth period,
but it wasn't enough to cover
up for their earlier mistakes.

Again this week, West Ottawa
played good ball in the first and
final quarters but were cold in
the middle periods. Doug Cook
and Pat Allen got the Panthers
rolling good in the first period
with some nice shots from the
field while Mike Gorman looked
good on defense and in re-
bounds. Spring Lake held a
slight lead at the end of the
first quarter, 17-16.

But it took the Panthers four
minutes to get a point on the
board in the second quarter
while Spring Lake was sinking
baskets from just about any-
where. The Panthers fell behind
by 14 points as S.L. took a 42-28
halftime lead.

West Ottawa started the third
period rather slow, throwing the
ball away, however, they came
back a little stronger toward the

Ron Holstine

pumps in 11 points
end of the quarter on two nice
steals by Ron Holstine who hit
the net on both, and three quick
baskets by Con Sommermand,
but still trailed, 56-41.

Spring Lake couldn't miss in
the final period but the Pan-
thers showed a lot of hustle and
came on strong to come within
eight points when the final buz-
zer sounded, not bad consider-
ing they trailed at one time by
18 points.

It was pretty even in the
shooting percentages with West
Ottawa netting 29 of 50 attempts
for a season high of 49 per cent.
Spring Lake shot 31 of 49 for 45
per cent.

The Panthers also had a slim
edge in rebounds getting 37 to
Spring Lake's 34. West Ottawa
was guilty of 17 turnovers.

Three players hit in double
figures for the Panthers with
Doug Cook getting 18 points fol-
lowed by Pat Allen with 12 and
scrappy Holstine hitting for 11.
Sommermand, who played good
on defense, hit four field goals
for eight points.

West Ottawa's reserves drop-
ped its contest, 62-44. The little
Panthers hit on 34 per cent
of its shots compared to Spring
Lake's 48 per cent.

Jim Friedelt led all scorers
from Spring Lake with 29
points. Tim Glupker was high
for West Ottawa with 11 fol-
lowed by Doug Vork with nine.

The Panthers play at Forest
Hills Friday.

Ivory Carvings Topic of Talk At Questers

"A Day in the Orient" was the title of Mrs. John La Barge's program on carved ivory presented to Jane Steketee Chapter of Questers, Wednesday.

Mrs. La Barge hosted the meeting and Mrs. George Dalman was co-hostess.

In her talk, Mrs. La Barge stressed the antiquity of the art of carving ivory and bone and its basic tools, which were much the same down to the 19th century. Little images of animals and persons were carved by the cavemen.

During the Middle Ages ivory was prized as highly as gold, silver and precious stones and was used for carving objects of devotion such as altar pieces, crucifixes, shrines and panels in ornamental doors.

In Oriental ivory carvings, almost without exception, the human figure is portrayed in some form of activity.

Some of the many carvings shown and explained by Mrs. La Barge were netsuke, a kind of toggle used to fasten medicine boxes; Daruma, a Buddhist saint; the phoenix, mythical bird seen only in times of peace and prosperity; the lute, the cherry blossom and Kwanon, a many-armed Buddha.

CAPE KENNEDY — It was minus-eight and holding when black clouds began to roll in and NASA officials called a delay. Blastoff came 40 minutes later at 4:03 p.m.

With us was John Anderson of Sarasota and we four were among 800,000 spectators. More than 100 chartered buses left the NASA Guest Center at Cocoa Beach for the launch site 22 miles away.

After seeing blastoffs on television, the real thing is almost impossible to describe, so spectacular is the actual sight. At spectator bleachers three miles from the launch pad, there was a five-second delay between the blast and the roar that shook the earth.

The day was bright and clear except for the brief cloudy period and rain that delayed the scheduled blastoff at 3:23 p.m.

The return traffic was reminiscent of Tulip Time in Holland. A tour guide directed the bus driver through a residential area, with bumper-to-bumper traffic moving at 7 miles an hour—a two-hour trip. The return to Sarasota took five hours.

On the way to Sarasota, we heard of the docking problems of the capsule and the LEM by car radio.

Among celebrities noted by the local party were Vice President Agnew and his official party, Army, Navy and Space officials, Actors Kirk Douglas and Cary Grant, and governors, senators and congressmen.

Soil District Re-Elects 2 At Meeting

Clarence Reenders and Tony Wolf were reelected to three-year terms on the board of directors at the West Ottawa Soil Conservation District Annual meeting, Jan. 23, at the Allendale Public School. A total of 150 persons attended.

Don Wollander, a farmer in Kent County and a district co-operator, gave a slide talk on the first chapter of Genesis "God's Creation." The slides showed animals, birds and insects found on or near his farm.

Kenneth Burger, visual aids director of the Ottawa Area Intermediate School District office showed four movies on the environment. One was on water, one on wildlife, one on garbage and another on soil conservation.

Bill Allred and Bill Antonides of the Soil Conservation Service gave a slide report on district activities. Area Conservationist Woodrow Barclay SCS, his wife and Richard Arps, Forester DNR, were special guests. Both men addressed the group.

Conservation awards were given Mrs. R. O. Neuman and John Wolfert. Mrs. Neuman is district chairman (12 counties in district) for "Keep Michigan Beautiful."

John Wolfert has been a co-operator of the West Ottawa Soil Conservation District since 1954. He operates a family farm of 120 acres in Zeeland township. At the present time he has a milking herd of 35 cows plus a number for herd replacements.

Recently he became concerned about polluting a natural watercourse next to the paved feeding area where he keeps his cattle. The West Ottawa Soil Conservation District and the Soil Conservation Service, with cost share from the Agricultural Stabilization and Conservation Service, were able to help him install a liquid manure tank in which all feed lot runoff will be held. This will be emptied periodically and spread on the cropland. This installation stops all livestock pollution of the nearby stream.

They received framed pictures of Michigan's entry in the America the Beautiful series as awards.

Slim Support Given Allegan Mall Proposal

ALLEGAN — Support for a one-block shoppers' mall in downtown Allegan is not as broad as was believed—at least among businessmen most directly affected — according to a survey conducted by City Manager Kenneth Bollinger.

Of the 20 businesses surveyed on the 100 block of Locust St., Bollinger said 10 responded with a flat "no," 7 with "yes," 2 with "qualified" "yes" and one did not answer at all.

The firms in the block also were queried regarding a change to parallel parking instead of the present angled parking. The split on this was 10 no, 9 yes and one "no answer."

City Council members have suggested that Bollinger get a reading on shoppers' attitudes toward the two proposals, possibly by enlisting a high school social studies class to conduct a survey during peak business periods.

The grant which will be administered by Dr. Ralph Ockersee, associate professor of biology at Hope, will be used primarily to aid students with the remainder to be expended for supplies and facilities.

During the past three years NSF grants have enabled 17 Hope College students to pursue sophisticated, individualized research in biology. Working with faculty colleagues, Hope students have produced such significant results that the data obtained in several of the research efforts have been presented at national and state meetings of such groups as the American Institute of Biological Sciences, the Geological Society of America and the Michigan Academy of Science, Arts and Letters. Some have been published in professional scientific journals.

Although the contributions of Hope undergraduates to the stockpile of information have been substantial, Dr. Norman Norton, chairman of Hope's biology department, notes, "Students research is not done for the sake of research — we're not ivory tower researchers. We consider student research a teaching tool and feel the best way to learn biology is to do biology."

During the summer of 1968, an NSF grant enabled a Hope student, Jack Waber of Kalamazoo, to collaborate with Dr. Ockersee on a research project on the regulation of growth and development. The results, presented at several major meetings and published in the journal Plant Physiology, showed that pea stem growth is a highly complex process controlled by the interaction of several hormones.

In addition to the seven students selected for individual research grants this summer, a number of other biology students participate in funded research by serving as research assistants to faculty members who receive grants from the NSF and other sources, such as Shell Oil Co.

Under this plan, a governmental unit may have the services of employable people at no extra cost. Forms must be filled out, descriptions of jobs must be drafted and submitted to the State Department of Social Services. On approval by the state agency, the state provides workman's compensation.

This plan, which has been on the books for a long time but not always exercised, does not display regular workers.

Bopf is working out details with the city attorney and city personnel director on job opportunities under city supervision. The county office "values" such employee's working time at \$1.65 per hour.

ESTABLISH FUND — Mrs. Donald Boyce presents a check for \$10,000 to Stuart Post, director of development for the Theological Seminaries of the Reformed Church in America to establish a loan fund in memory of her husband. At left is the Rev. Raymond

Van Zoeren and at right, the Rev. Cornelius Dykhuizen, two of a large group of ministers who served the Classis of Albany at the invitation of The Rev. Donald Boyce during his term as 'Synodical Missionary.'

Loan Fund Honors Rev. Donald Boyce

The Rev. Donald Boyce Memorial Loan Fund was established on Jan. 13, 1971, at the Western Theological Seminary for students of the Theological Seminaries of the Reformed Church in America, President Herman J. Ridder announced today.

Mr. Boyce was born Nov. 6, 1892 at Ellenville, N.Y. and began his ministry in Waterloo, N.Y. in 1913. He served there as stated supply until he graduated from Lancaster Theological Seminary in 1915, and was licensed and ordained by the Classis of Albany in 1916. He lived in Waterloo for his entire ministerial life, including the thirteen years when he served the Albany Synod as "Synod as 'Synodical Missionary' from 1926 to 1939. He returned to this pastorate, and continued there until he became pastor-emeritus in 1961. He died at Waterloo on Nov. 29, 1967.

It was during his service for the board of domestic missions that he was instrumental in interesting graduates from Western Theological Seminary to serve churches in the Albany Synod, in order to provide pastors for the many vacant churches at that time. The result was that a group of ministers who graduated from Western in the years 1928, 1929, and 1930, developed a friendship with each other, as well as with Mr. Boyce, banding this group together for many years, with monthly social times. This group includes: Louis Benes, Sr., William Buitendorp, Henry Bunggraaf, Cornelius Dykhuizen, Franklin Hinkamp, Percy Kinema, Delbert Kinney, William Maat, Alvin Neevel, Marion Van Raalte, and Raymond Van Zoeren. It was only when these men began to leave the Albany area that this fellowship was discontinued, and today only two of the group live in the area.

Many of these men served in rural or village churches as their first pastorate, but the list of names of other men, who graduated from both New Brunswick and Western Seminaries and were placed in various fields by Mr. Boyce, is a long one.

Mr. Boyce's great concern for the rural church was recognized by the "Rural Church Institute" of the New York State Council of Churches, both in 1953 and 1955, when he was

awarded the John Frederick Oberlin Fellowship Award for his dedication in his work. Besides filling the offices of stated clerk and treasurer of the classis of Albany for 38 years, Mr. Boyce was widely known for his activities in many phases of community life.

It is fitting, in recognition of her husband's dedicated life and ministry, that Mrs. Boyce desired him to be remembered through her gift of \$10,000, as a perpetual memorial in the Rev. Donald Boyce Memorial Fund, so that students for the ministry may be aided in their course of training in two seminaries of the Reformed Church.

Dick Cech

Cech Named Executive

Dick Cech was named recently to replace Robert Bickel as Boy Scout executive for the Chippewa District including the Holland-Zeeland and Saugatuck-Douglas areas.

The 36-year-old administrator and his family live at 57 East 20th St., where they moved last June. His wife Linda teaches conservation and geography at E. E. Fell Junior High, and they have two children: a son William, 7, and a daughter Susan, 6.

Graduating from the University of Detroit with a major in Chemistry, Cech spent 15 years in sales before entering the Boy Scouts in 1966. His interest in working with boys and with the people of the community led him into the scouting field, where he finds "the work in itself — and extreme pleasure. It's very rewarding."

With Boy Scout Week Feb. 7-13, Cech finds himself busy coordinating various activities for the week, and planning a speech for the Blue and Gold Banquet which will be held on Feb. 9 at North Holland School.

About the only bright spot for the Maroons was the return to form shooting-wise, of guard Ron Scholten, who popped in 24 points. Christian's usually strong defense, except for brief spurts, just wasn't there, as many times defensive assignments were missed.

The Maroons, after trailing 8-2 early in the game, roared back to take an 18-15 edge at the end of the quarter. Twice in the second period Christian held nine-point leads, only to see the Vikings, behind the brilliant play of Rick Hunter, who scored 11 of his 16 points in the second quarter, and guard Rick Lighton, with 10 points, narrow the margin to two points, 40-38 at the half.

Lighton continued to sparkle in the second half adding 16 points, and ended the night with 30, in addition to doing an excellent job in ball handling.

Christian four times led by six in the third period, the last time being 52-46. In the last three minutes and 45 seconds of the quarter Whitehall outscored the Maroons 15-1, to lead 61-53 going into the final eight minutes.

Hitting on seven of their first eight shots in the fourth quarter the Vikings raced to a 77-59 lead. The only shot missed during this time was followed by a beautiful tip-in by Gary Bell, Christian, behind two baskets each by Jerry De Groot and Ray Schrottenboer, managed to score 13 points to seven

for the Vikings during the remainder of the game, but the lead was too great to overcome, sending the Maroons to their third consecutive loss, dropping their season record to 8-4.

Christian will attempt to get back on the winning track Saturday afternoon when they travel to River Rouge to take on the defending state champions, who are again ranked No. 1 in the state.

In the reserve contest the Maroons were victorious, 62-53. Leading at the end of each quarter by scores of 16-12, 35-21 and 46-37 the Maroons were led in scoring by Chuck Visser with 14, while Sid Bruinsma had 13 and Rick Klompaker 12. Barry Williams pumped in 22 for Whitehall.

Red-Hot Vikings Stun Christian

"I can't believe it. You'll never see a team shoot 79 per cent in one half again." These were the words of Coach Elmer Ribbens after seeing Whitehall's basketball team do that against Holland Christian in the second half of Thursday's game.

Breaking open a close ball game in which they trailed 40-38 at halftime the Vikings connected on 11 of 14 shots in each of the last two quarters, to defeat the Maroons 84-72. Two of the six shots Whitehall missed in the second half still resulted in baskets on tip-ins. The phenomenal shooting was even more impressive when you consider most of the shots were from 15 to 20 feet away.

Added to a 43 per cent first half average on quarters of seven for 21 and nine for 16, Whitehall ended the game hitting 58 per cent of their shots. Christian, on the other hand, although taking 21 more shots than the Vikings hit on seven less, (31 of 86) for 36 per cent. They had periods of 8-21, 10-24, 6-19 and 7-22.

About the only bright spot for the Maroons was the return to form shooting-wise, of guard Ron Scholten, who popped in 24 points. Christian's usually strong defense, except for brief spurts, just wasn't there, as many times defensive assignments were missed.

Propose Parkway As Mall Alternate

A group of local merchants headed by Harold De Fouw concerned with the design of the proposed downtown mall are working on an alternate plan which would retain some parking and restrict through traffic at a lower speed limit.

This concept similar to a plan now in effect in Ann Arbor resulted from a meeting with Mayor Nelson Bosman in his office earlier this week. The concept differs from the plan of the Downtown Development Corp. headed by Dale Fris in that maximum use of trees and shrubs would beautify the curb area on both sides of Eighth St. from River to College Aves.

"Downtown Parkway" has been suggested as a name. The alternate plan promotes the following:

1. Continuation of traffic down Eighth St. at a slow rate.

2. Retain the present Tulip Time parade route on Eighth St., thus permitting visitors to congregate in the shopping area.

3. Facilitate continuation of vital public services such as police and fire protection.

4. Street cleaning, snow removal and general maintenance easily accomplished.

5. Lower cost of installation.

6. Eighth St. can be temporarily closed for sidewalk or street sales which have proved successful in the past.

7. Plan would tie in with proposed program to make Seventh St. one way west and Ninth St. one way east.

8. Future expansion of parkway can be readily accomplished east or west. Merchants east of College Ave., who have been responsible for remarkable improvements in the last two years, could visualize a continuation of the parkway to Windmill Island.

In general, merchants at the meeting favored a flexible plan to accomplish desired results in revitalizing the downtown. Another meeting will be called soon of all merchants in the affected area.

Panthers' Team Stays Overnight

ROCKFORD — West Ottawa dropped its basketball game to Rockford here Friday night but had all night to talk about what they did wrong, as the whole team was forced to stay overnight in Grand Rapids due to the bad weather.

The final score was Rockford 86 West Ottawa 74.

West Ottawa started out good in the first quarter, as the Panthers didn't have any trouble in breaking the Rams press, as Jim Bagladi led the charge by hitting several field goals.

The Panthers ended the first period leading 20-15, and were charged with only three turnovers to six for the Rams.

But in the second quarter, the Panthers turned colder than the weather and couldn't buy a basket, as they only managed seven points in the entire stanza.

While West Ottawa was getting cooler, the Rams started to find the range and took a 37-30 halftime margin.

The third period was very much the same, as the Panthers made six field goals from the field while the Rams netted nine of 16 shots for 60 per cent.

West Ottawa rallied in the final stanza to hit on 11 of 32 but fell short by 12 points in the scoring column.

This was the third win of the season for the Rams in 10 games while the Panthers suffered their 10th setback in 11 tries.

Bagladi led the Panthers with 17 counters with Bill Vanden Berge chipped in with his season high 16 points. Mike Gorman followed with 10 while Doug Cook added eight.

The Rams won the game from the charity line by swishing 28 while the Panthers only netted 16 free throws.

West Ottawa showed plenty of improvement in its ball handling, as they were only charged with 10 turnovers while the Rams committed 10 miscues also.

Rockford finished the game by hitting on 39 per cent of its shots to 33 for West Ottawa.

Coach Karl Von Ins felt lucky that his team defeated the reserve Rams, 56-53, as the Panthers had 31 turnovers.

The reason that Von Ins felt lucky was that Doug Vork fouled out and Steve Hartman was injured which forced him to leave the contest.

The Panthers are now 5-6 for the year.
